

HUNGER

- The US wastes **half of the food** we grow or produce.
- There are **850 million** chronically hungry people in the world.
- Reasons for this include **poverty**, **discrimination** against women, drought and floods caused by **global warming**, governments that **waste** money, rich countries that **don't share** their wealth.
- The US Government ranks **last** among rich nations in aid to the world's poor as a percentage of our national wealth.

- The US Government ranks **last** among rich nations in aid to the world's poor as a percentage of our national wealth.

HUNGER

- **250,000 children** go blind each year for lack of Vitamin A. **80% of those children** will die within a year.
- **10% of the world's children** are stunted due to malnutrition — they don't grow as strong and tall as they should.
- When mothers in poor countries can at least finish elementary school, it reduces child mortality **by half**.
- Global warming will cut grain harvests in Africa by over **200 million tons** per year.

For I was hungry and you gave me food...

—Matthew 25:35, NRSV

HUNGER

Solutions:

- More pay for poor people.
- Education for girls.
- Stop global warming.
- More sharing by rich nations.
